

**TORINO AIRPORT WINS FIRST PRIZE  
AT THE ACI EUROPE BEST AIRPORT AWARDS 2022**

*Torino Airport recognised as best European airport in its category  
by the Association that brings together more than 500 airports in 55 countries*

*Caselle Torinese, June 24, 2022* - Torino Airport wins the first prize as Best European Airport in its category at the 32nd Annual Meeting and Congress of ACI Europe, taking place in Rome.

The Best Airport Awards, now in their 18th year, recognise excellence and outstanding achievements by airports across their entire portfolio of airport activities, and this year they recognized both the many ways in which airports are recovering from the Covid-19 pandemic and the increasing focus on sustainability initiatives.

Torino Airport was judged by an independent jury of civil aviation experts from the European Commission, Eurocontrol, SESAR Joint Undertaking, International Forum and ECAC-European Civil Aviation Conference.

First in the category under 5 million passengers, Torino Airport distinguished itself for the significant resilience it put in place despite the pandemic, expanding its flight network as never before and thus contributing to the connectivity of the territory. Particular importance was also attached to the intense work dedicated to innovation and sustainability.

Speaking during the ceremony, Torino Airport CEO Andrea Andorno said: "I am proud and honoured that Torino Airport has been awarded as the Best European Airport 2022 in its category. I would like to thank ACI Europe and the jury, who recognised the value of our efforts. My thanks go in particular to all the employees of the SAGAT Group who made this important result possible, the result of the work of a great team. Thanks, of course, also to our shareholders, who have always paid great attention to and supported the development of our airport from an innovative and sustainable perspective. Expanding the network of destinations in such a significant way has been very challenging, but the traffic results we

are recording confirm that we are on the right track to contribute even more to the growth of our territory, also as a destination from many countries that were previously not served”.
